Attn: docket No. 97N-0023

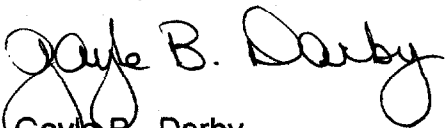

Dear Sir:

In 1997 I received information that there was a possibility that asthma inhalers may be phased-out because a presence of CFC. I wrote to express my indignation at such an absurd measure and I also wrote my Congressman and Senators from South Carolina. This week I have been informed that I can no longer obtain my medication BECLOVENT because there are no supplies available.

I would like information concerning this matter. If you have any, please forward it to me at 2400 Wilmot Avenue, Columbia, South Carolina, 29205. I find it hard to believe that in this wonderful land of freedom, I can no longer obtain a medication that has been so important to my overall good health.

Thank you in advance for your attention to this matter.

Sincerely,

Gayle B. Darby
